Transforming Campuses Into High-Achieving Centers of Learning

Campus By Design is a transformational, multi-year process for campus level administrators and teachers that dramatically elevates the academic and behavioral standards of students and campuses.

As a principal, you face a formidable challenge: you must raise the bar on student performance while competing against social, environmental, and outside pressures as never before.

You must overcome the time and budgetary constraints to create effective professional development experiences that address the culture and climate of your campus.

Capturing Kids' Hearts® (CKH) strengthens students' connectedness to others through enhancing healthy bonds with teachers and establishing consistent rules of conduct.

Campus By Design provides sequenced training, consulting, coaching, mentoring, and continuing support that builds campus-wide skill mastery of the Capturing Kids' Hearts® Process through modeling, practice, and reinforcement.
